

Zaeem Zaman

AI/ML Engineer | Data Scientist | Cloud Architect | Data Engineer

engr.zaimezaman@gmail.com +966 564684079 Riyadh, Saudi Arabia [linkedin.com/in/zaimezaman](https://www.linkedin.com/in/zaimezaman) github.com/zaime-zaman

PEC Licensed

Riyadh-Based

Vision 2030

Immediate Joiner

Transferable Iqama

60+ Projects

Professional Summary

AI/ML Engineer & Data Scientist with 3+ years experience delivering production-ready AI solutions across healthcare, finance, and industrial automation. Based in Riyadh with transferable iqama - immediate availability. Completed 60+ projects spanning Machine Learning, Deep Learning, NLP, Computer Vision, Cloud Computing, Data Engineering, and BI. B.Sc. Computer Systems Engineering (3.5/4.0) + 75+ professional certifications (IBM, Google, Microsoft, Meta, Snowflake, HP). Fully aligned with Saudi Vision 2030.

 **Riyadh-Based | Immediate Joiner**  **Transferable Iqama**  **PEC Licensed Engineer**  **Vision 2030 Ready**

 **60+ Production Projects**  **75+ Certifications**

Soft Skills

Problem-Solving | Analytical Thinking | Team Collaboration | Effective Communication | Project Management | Client Relationship Management | Agile Methodologies | Critical Thinking | Time Management | Adaptability | Leadership | Conflict Resolution

Core Skills

AI/ML & Deep Learning

Machine Learning, Deep Learning, NLP, Transformers, LLMs, RAG, Computer Vision, CNN, RNN, LSTM, Feature Engineering, Predictive Models, TensorFlow, PyTorch, Keras, Scikit-learn, OpenCV, Hugging Face, LangChain

Cloud & MLOps

AWS (S3, Glue, Lambda, Athena), Azure (Data Factory, Databricks, Synapse), GCP (Vertex AI, BigQuery), Docker, MLflow, CI/CD, Containerization, ETL Pipelines, Data Warehousing, Data Modeling

BI & Databases

Power BI, Tableau, SQL, Python, Pandas, NumPy, KPI Dashboards, DAX, Predictive Analytics, REST APIs, Flask, FastAPI

Industrial & Automation

Industrial Automation, Predictive Maintenance, Jenbacher 620 Engines, Odoo ERP, Workflow Automation, IoT Data Processing, Real-Time Analytics, SCADA Integration

Professional Experience

Python Developer & Data Scientist

Jul 2025 - Present

Phoenix Technologies | Remote for Saudi Market

- Architect AI/ML solutions using Python, TensorFlow, PyTorch, Scikit-learn for production
- Feature engineering & predictive models for 3D spatial data, computer vision, and NLP
- Build REST APIs (Flask, FastAPI) serving ML models with less than 200ms latency
- Impact:** Reduced inference time by 35% through optimized preprocessing
- Cloud services (AWS S3, Lambda): Containerize with Docker, CI/CD using Git

Data Scientist - Analytics & Decision Intelligence

Sep 2025 - Present

SAFNIC Solutions | Serving GCC Clients

- Data Engineering: Design ETL pipelines using Python/SQL for analytical datasets
- Data Modeling & Data Warehousing for executive reporting and KPI monitoring
- Build interactive Power BI dashboards with DAX measures and Tableau visuals
- Impact:** Reduced manual effort by 40% via Python scripting automation
- NLP-based text analytics for customer feedback processing

Freelance Data Scientist & AI Consultant

Jan 2022 - Dec 2025

Fiverr | Global Clients including Saudi Arabia

- Delivered 25+ end-to-end AI/ML solutions for healthcare, finance, and e-commerce
- Developed RAG, LLMs, Transformers and LangChain-powered knowledge systems
- Implemented computer vision solutions (object detection, face mask detection)
- NLP:** Sentiment analysis, text classification, named entity recognition
- Industrial automation projects for manufacturing and supply chain optimization
- 5-star rating with 100% satisfaction including Saudi clients

Professional Experience (continued)

Data Scientist & Data Analyst

May 2024 - Apr 2025

Soorry Enterprises Pvt. Ltd.

- Designed ETL pipelines processing 5,800+ operational logs for real-time analytics
- Developed predictive maintenance models for Jenbacher 620 engines, **reducing downtime by 25%**
- Industrial automation and NLP for log analysis and anomaly detection
- SQL optimization **reducing database processing time by 35%**
- Power BI dashboards for KPI tracking - **reduced manual reporting by 50%**
- AWS S3 integration for data lake storage and retrieval

Data Science / ML Intern

Mar 2024 - Jun 2024

CodSoft

- Developed and fine-tuned ML models using TensorFlow and Scikit-learn
- Feature engineering and hyperparameter tuning for model optimization
- Deployed real-time Currency Converter Chatbot using Dialogflow, Flask, Telegram API
- NLP-based chatbot with intent recognition and entity extraction
- Successfully deployed 3 production-ready predictive models during internship

Key Production Projects (60+)

RL-CNN Pneumonia Detection

Plant Disease Prediction Web App

Real-Time Face Mask Detection

Breast Cancer Classification (DNN)

Fake News Detection (NLP LSTM)

RAG Intelligent Chatbot (LLM)

Credit Card Dashboard (Power BI)

Movie Recommendation System

AWS S3/Glue/Athena Pipeline

Jenbacher 620 Maintenance

Customer Churn Prediction

Sentiment Analysis (NLP LSTM)

Industrial Automation Logs AI

NLP Text Classification

Predictive Maintenance Models

Azure Data Engineering Pipeline

Certifications (75+ Professional)

PEC Registered Engineer

Google - GenAI & LLMs

Azure AI (4x)

IBM Data Science

Google Data Analytics

Hugging Face AI Agents

Python Essentials (Cisco)

IBM ML with Python

SQL & Databases (IBM)

Power BI (SkillCourse)

Meta Front-End Developer

NLP Specialization

Snowflake (4x)

HP Data Science

KNIME Data Science

CBAP Foundations

Education

B.Sc. Computer Systems Engineering - Islamia University Bahawalpur (2021-2025) | CGPA: 3.5/4.0

F.Sc. Pre-Engineering - Ziauddin University, Pakistan (2019-2021)

Saudi Market Readiness

📍 **Location:** Riyadh - immediate onboarding | ✅ **Visa:** Transferable Iqama | Expat-allowed role ready

🔧 **License:** PEC Licensed (Saudi Council of Engineers equivalent)

🚀 **Vision 2030:** Digital transformation & AI initiatives

🏭 **Industrial Automation:** Manufacturing, predictive maintenance, SCADA integration

🌐 **Languages:** English (Fluent) | Arabic (Basic/Conversational) | Urdu (Native) | Punjabi (Fluent) | Sindhi (Fluent)

ATS Keywords (100+): AI/ML, Data Science, Cloud Computing, AWS, AWS S3, Azure, Python, Power BI, SQL, ETL, Data Engineering, Data Warehousing, Data Modeling, Feature Engineering, Predictive Models, Deep Learning, NLP, LLMs, Transformers, RAG, Docker, CI/CD, REST APIs, Healthcare, Finance, Industrial Automation, Saudi Arabia, Riyadh, Vision 2030, Transferable Iqama, Immediate Joiner, Problem-Solving, Analytical Thinking
